

Say **GOODBYE** to overflowing rubbish in your backyard and shed!

Remove it easily and quickly, when you want, as much as you want!

What do you do when your bins are full, and the next council rubbish collection is a week away? Or you want to tidy your garden but the next green waste collection is three months away. Or what about the old junk and bits and pieces around the yard and behind the shed that looks a mess.

The answer is - 'Tidy Up', a local business helping local residents for over 30 years. With over 1100 local customers, they are removing over 1000 tonnes of green waste, junk and rubbish each year, easily and quickly. No more time wasted trying to borrow a trailer and paying for a trip to the recycling station or disposal site.

TIDY UP REMOVE -

- Garden pruning • General garden waste • Grass clippings
- Overflow of your council bins
 - Cardboard, foam, fabrics, glass and metal items
- General junk and household rubbish except bricks, sand and any hazardous materials

How does it work?

Tidy Up offer regular or once off rubbish removal depending on your needs.

Tidy Bag Service

They deliver a Tidy bag which is placed out of sight close to your rubbish. Each bag holds three times as much as your council bin. You can choose from a once off service where they deliver 2 bags on sturdy

frames, set up and ready to use, or choose a monthly pick up service.

What if you fill the garden bag early? Just contact Tony or Shandra at Tidy Up and they will arrange a special pickup to empty the bag. What if you haven't filled the garden bag? Again just contact Tidy Up and they will skip your collection for that month and you don't get charged. They offer a flexible service that will remove your rubbish in a uniformed, professional manner.

Monthly \$19 per month
Bimonthly \$27 per 2nd month
Once off \$58 (2 bags delivered)

Bulk Removal Service

Tidy Up is currently expanding on a bulk rubbish removal service where they will remove all your rubbish from where it lies and save you the lifting. They will give you a quote range over the phone and if necessary, will give an exact price before any work is started. The team will lift and carry all the rubbish straight to their truck. You can have a clean shed and backyard without

doing much work yourself at very competitive rates.

Tidy Up operates a modern purpose built waste removal truck and the operators are uniformed and will go that extra distance for you. If you have an item of rubbish that needs removing and it won't fit in the bin, then they will still carry it away for you. WOW, that's service. All rubbish is sent to a recycling station or waste disposal site where as much is recycled as possible.

- Regular Tidy bag rubbish removal
- Bulk rubbish removal
- Most types of rubbish and waste disposed off
 - Flexible service
- Extremely cost effective rubbish removal
